Σοφόν το σαφές

The Wisdom of Wording

with **Nina Kaloutsas**,
Voice Specialist ([bio](#))

Words have a lasting effect as they shape thought patterns, emotions, experiences, and therefore reality.

"With your words, you wield the power to plant seeds of either success or failure in the mind of another."

Whether it is to motivate, engage, or build high-performing teams or individual morale, your words carry weights of influence. Therefore, choosing to use words wisely is not an option.

* The presentation will be carried out in Greek.
